REPORTS MILLIONS OF TREES BEING PLANTED
 TO CAMOUFLAGE CITIES IN SATELLITES

Belgrade, 5 October (Turkish News Agency) -- The Satellite countries have reportedly stepped up their war preparations on orders from the USSR, and to this end have begun to plant millions of trees to shield cities from the sight of heavy bombers.

For example, 3 million trees have been planted in Rumania in the past few months, including the province of Bucharest. Many trees have also been planted in strategic areas of Bulgaria, especially along transportation routes. The trees, which are being planted by military forces exclusively, are of a type which grow and spread rapidly.
